Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 2, 8, 10, and 11 drawn to a view finder with light emitted device, classified in class 359.
 - II. Claims 3-5, 7, and 9, drawn to a view finder with liquid crystal display panel, classified in class 349.
 - III. Claim 6, drawn to display panel driving method, classified in class 345.
 - IV. Claims 12, drawn to a video camera, classified in class 348.
2. Inventions I, II, III and IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because a view finder or a video camera which does not required to includes LED and Liquid crystal display. The subcombination has separate utility such as LED and Liquid crystal display.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, Group III or Group IV, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Art Unit: 2674

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
